

PROJECT ECHO

Social Determinants of Health

<http://svsu.edu/echo>

Northern Michigan University Center for Rural Health Project ECHO[®] is a program with a focus on **Social Determinants of Health** including how social determinants of health impact infectious disease and COVID, how social determinants of health impacts social and behavioral health, how social determinants of health impacts perinatal issues, and how social determinants of health impacts substance use disorder.

This learning opportunity is designed for any healthcare provider, mental health or substance use disorder professional, social worker, peer recovery specialist, administrator, or student with interest in the program topics.

What does SDoH Offer?

This ECHO provides training in Social Determinants of Health at no cost, delivered right to your clinic, with a monthly schedule for your convenience. Using simple videoconferencing technology, healthcare teams connect to a community of learners which offers:

- Free continuing education credit from MidMichigan Health*, Saginaw Valley State University**, and Mid-State Health Network***, Michigan Community Health Worker Alliance (MiCHWA)****
- Opportunity to present actual patient cases, in a de-identified format, and receive specialty input
- Access to a virtual learning community for access to treatment guidelines, tools, and patient resources

Session information

SDoH ECHO is held monthly on the 4th Tuesday of each month from 1:00 pm– 2:30 pm EST. See reverse for schedule.
